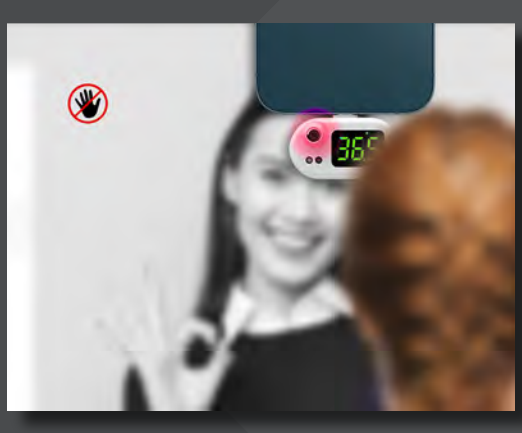
INTRODUCING

INFRARED INSTANT THERMOMETER

HIGH SAFETY PERFORMANCE FOR REOPEN BUSINESSES



Our thermometer supports non-contact measurement, which greatly improves safety. With its small and light features, it can be conveniently carried to measure temperatures at any time.

FAST & ACCURATE MEASUREMENT

The built-in intelligent thermopile sensor can be connected with any mobile phone to measure quickly in one second. The LCD screen clearly shows the degree.

POCKET SIZE NO BATTERY NEEDED

Mini size makes it convenient to carry on the go. Check your tempurature whereever you are. Just plug in to the charger port on your phone and scan!
