8000 / 5200 mAh

iMojo GOLD

More than devices will get a charge
from the stylish, polished **GOLD** exterior

Never Underestimate the Element of Style

Diamonds might be a girl's best friend, but every good executive knows the merit of the karat. Introducing the iMojo Gold, the high capacity battery charger with the Midas touch. With multiple charging ports and a charging capacity four times that of the average portable battery charger, you might think you don't need the extra style points you get from the polished gold finish and classic leather travel case. But that's what makes the iMojo Gold special – the power of the polish. And the iMojo Gold will feel even more personal when you include an engraved message. So go bold; give iMojo Gold.

Also available in more colors –
Black, Silver, Red, Blue.
